OLES BONDAR

Senior Web Developer

Summary

Senior Web Developer proficient in MERN stack and Tailwind CSS, specializing in building dynamic, responsive web apps with intuitive UI/UX. Experienced with blockchain integration, smart contracts, and dApps. Proven ability to lead projects from concept to deployment, collaborating effectively with cross-functional teams. Passionate about leveraging cutting-edge technologies to solve complex problems and enhance user experiences.

Experience

Fivecube
Senior Web Developer   08/2022 - 11/2023

- Cultivated a library of reusable code and UI components, enhancing development speed by 20%
- Led the development of a dynamic, AI-powered recommendation engine that increased average order value by $30 per customer engagement.
- Implemented a scalable microservices architecture to support the rapid growth of e-commerce platforms, resulting in 99.99% uptime even during peak traffic.
- Executed a full-stack overhaul that enhanced site performance and reduced page load times by an average of 1.5 seconds, directly influencing a 20% uplift in sales conversions.
- Integrated secure payment gateway solutions that improved payment success rates by 15% and supported a monthly transaction volume of over $10M.
- Orchestrated the strategic migration of legacy systems to AWS, achieving a 30% cost reduction in infrastructure expenses and boosting system elasticity.

SkySoft.tech
Web Developer   12/2020 - 04/2022

- Spearheaded the redesign of a core product feature, resulting in a 40% increase in user engagement
- Led a team of 5 developers in adopting microservices architecture, improving system reliability by 33%
- Implemented continuous integration/continuous deployment (CI/CD) pipelines, reducing go-to-market time for new features by 22%
- Collaborated with cross-functional teams to identify and rectify 30+ critical security vulnerabilities

Rocque
Web Developer   03/2020 - 08/2020

- Part of team that launched AEC related software product used by over 500 companies
- Used version control effectively to manage codebase and implement bug fixes
- Implemented efficiency enhancement strategies which led to 15% better performance

Education

Taras Shevchenco National University of Kyiv
Master of Science in Computer Science   2013 - 2017

Strengths

💡 **JavaScript Expertise**
Proficient in JavaScript, coded efficient, maintainable web applications that resulted in 30% performance improvement

⭐ **Cross-functional Teamwork**
Experience collaborating with cross-functional teams to develop feature development across many software projects

🪄 **Self-starter**
Proven ability to work independently, manage multiple projects simultaneously leading to timely, accurate results
